

Mobile Plasma Sterilizer GQP-C72

Installation Method:	Floor type / Mobile
Suitable air volume:	850 m³/h
Applicable area:	100-200 m²
Voltage:	AC220V / AC110V
Power:	68 W
Shell material:	201Stainless steel / powder coat paint
Plasma tube:	2pcs*520mm (20.5")
Noise:	≤50 dB
Product dimension:	370*255*865 mm (14.6"*10.0"*34.1")
Net weight:	23 kg

BEYOK GQP- series plasma air sterilizer (Plasma Purifier) uses high-voltage electric field plasma technology to induce air discharge to generate millions of ion clusters similar to nature, and actively collide with harmful substances such as bacteria and viruses in the air to ionize, puncture cell membranes, DNA, and proteins, causing them to rapidly rupture and lose their activity until they are killed and decomposed. It is widely used in air handling systems with multiple scenarios in families, people gathering in commercial public places, or public transportation systems.

Features:

- Uses a plasma generator with high-efficiency low-temperature asymmetric plasma technology (Plasma Generator)
- Select appropriate modules and installation structures based on various scenarios
- Optional built-in time cycle control circuit, mobile phone control, automatic cycle work

Principle:

- Plasma Air Technology is to use a specific high-voltage electric field to drive the inner and outer electrodes of the discharge tube to work, induce air discharge around the discharge tube, and generate millions of high-energy ion clusters similar to the natural forest environment.
- These millions of charged high-energy ions actively attack viruses and bacteria, break down cell membranes, DNA or proteins, and rapidly rupture and lose their activity until they are killed and decomposed to kill bacteria.
- Electrically charged high-energy ion clusters react with harmful organic substances in the air to generate electrochemical reactions that decompose large molecular clusters into small molecular clusters, and even generate harmless carbon dioxide and water under oxidation reactions.

Application:

- Commercial places: schools, hospitals, enterprises, factories, supermarkets, hotels, entertainment venues, buses, public toilets
- Ventilation systems: Air supply and exhaust systems embedded in small air handling systems, such as fan coil units, HVAC, and other ventilation systems

Product series:

Name	Model	Input voltage	Power	Air volume	Applicable area	Product dimension
Mobile Plasma Sterilizer	GQP-C72	AC220V/110V	68 W	850 m³/h	100-200 m²	460*180*160 mm
Mobile Plasma Sterilizer	GQP-C73	AC220V/110V	85 W	850 m³/h	200-300 m²	460*180*160 mm
