The OX-series oxygen concentrator uses ambient air as a source of oxygen. It is designed to deliver continuous and concentrated flow of oxygen. It has been designed to provide a combination of enhanced features, reliability of a proven technology and unsurpassed quality. It runs on electricity and the only maintenance required is the regular cleaning of filters.

Features:

- Oxygen concentration between 93%±3%
- Very quiet and safe, less than 49dB
- Simple to use and maintain
- Superior Grade of AB Column Molecular Sieve
- Economical, dependable and durable
- Compressor included

Applications:

- Ozone Generator Feed Gas
- Aqua Culture
- Medical Application
- Multi Industry Usages
