Car Air Purifier AP-C97

Ozone Output:	10-30mg/h
Ion Content:	3 million /cm3
Voltage:	DC12V
Power:	3 W
Dimension (LxWxH):	138*45*50 mm
Net Weight:	100 g

The AP-C97 car air purifier not only sterilizes and discomposes harmful car fumes to generate pure and fresh natural air, but also prevents harmful car fumes such as formaldehyde, benzene, carbon monoxide and various bacteria and viruses from impacting passengers.

Features:

- A micro scavenger fan generates an even output of airflow that covers an extensive area.
- There are no dead-zones, and **it** offers highly efficient energy usages.
- Convenient to carry and use because of its compact size, and superior and fashionable design.

Benefits:

- Purifies the air
- Remove unpleasant odors
- Sterilizes and eradicates harmful volatile chemicals
- Eliminates positive ions in the air and dust. Settles and eliminates static electricity.
- Removes free radicals, and relieves driver fatigue.

Application:

- Car
